EXECUTIVE SUMMARY

This schedule sets out Stormglide's standard commercial terms for the HRM platform. Pricing is structured in four parts: a tiered annual subscription covering the core platform, headcount scaling for organizations above each tier's included allowance, one-time implementation and setup services, and an optional menu of custom features and integrations.

All subscription and setup fees are quoted in **US Dollars**. A Ghana Cedi-denominated invoice can be arranged on request, indexed to the Bank of Ghana interbank rate at the time of invoicing.

01 — SUBSCRIPTION TIERS

Three tiers, priced by what each company actually needs

Every tier includes the full HR foundation — records, org chart, leave, attendance, policies and security. Higher tiers add operational automation and, at the top, full governance and compliance tooling.

	STARTER	ADVANCE	PRO

Effective rate shown is the annual subscription divided across the tier's included headcount — it improves as an organization approaches the cap, and again with each tier upgrade.

02 — HEADCOUNT SCALING

Beyond each tier's included allowance

Additional employees beyond a tier's included headcount are billed annually in advance, at a declining per-employee rate as headcount grows.

BRACKET	RATE PER EMPLOYEE / YEAR
Next 100 employees	\$30.00
101 – 250 employees	\$26.00

BRACKET	RATE PER EMPLOYEE / YEAR
251 – 500 employees	\$22.00
500+ employees	\$18.00

03 — IMPLEMENTATION & SETUP

One-time setup, scaled to scope

Setup covers data migration, configuration, and admin enablement — billed once at contract signing, independent of the annual subscription.

TIER	SCOPE	ONE-TIME FEE
Starter	Employee data migration, department setup, leave rules, one admin training session.	\$1,200
Advance	Above, plus payroll configuration, asset register setup, and manager training workshop.	\$2,200
Pro	Above, plus multi-branch routing, custom PDF branding, dedicated project manager and on-site training.	\$3,500 – \$6,000

04 — CUSTOM FEATURES & INTEGRATIONS

Optional, added to any tier

Engineering work to connect the platform to existing infrastructure or extend it beyond the standard feature set.

Biometric hardware integration Real-time sync connector for physical clocking machines (ZKTeco, Anviz, Suprema) with automated attendance log polling.	\$750 – \$1,200
--	------------------------
